

**Boilermaker Contractors' Association of Ontario
Common Welding Qualification Program
"BCACWQ"**

PARTICIPANT DECLARATION FORM

WHEREAS the Boilermaker Contractors' Association of Ontario, hereinafter called the "BCA" has established standard welding procedures for the use of its members in order to avoid retesting within a given year when welders who have authority to use such standard welding procedures move from employment by one member of the BCA to employment by another member of the BCA;

AND WHEREAS these procedures have been duly recorded and approved by the Technical Standards & Safety Authority, hereinafter called the "TSSA";

AND WHEREAS the BCA and the TSSA have agreed that the BCA shall be the agent of its members for the purpose of facilitating movement of welders between its members within a given year without retesting when the welding work is covered by the standard welding procedures in effect from time to time;

NOW THEREFORE it is understood and agreed as follows:

This agency is for the limited purpose set out above, and in no way whatsoever does it relieve the Contractor signatory hereto from any responsibility imposed upon the Contractor under The Boilers and Pressure Vessels Act R.S.O. 1970, c.47, and any Amendments and Regulations passed pursuant thereto.

It is further understood and agreed that the Contractor indemnifies and save harmless the BCA from any and all claims arising from the agency outlined herein, from any claim arising from the responsibilities of the Contractor under the Boilers and Pressure Vessels Act, and from any claims arising in any way whatsoever from the use of the standard welding procedures.
